Electrical Division

Electrical division is equipped with adequate resources to take up Installation, Testing and Commissioning of Electrical systems up to 220kV consisting of GIS, Transformers, Switchboards, Control systems and Battery chargers. We are also in the possession of complete range of Electrical Testing equipment, Testing Engineers, Engraving services, Earth hole drilling services, Structural steel fabrication & installation division, Water & fire sealant works which complements the complete requirement of Electrical Substation installation works.

MEP Division

As KAHRAMAA certified Grade "B" contractor, we carry out ;

- Installation, testing & commissioning of all kinds of MEP infrastructure for industrial and commercial sectors.
- Firefighting and Fire Alarm for Industrial and High rise buildings.
- Plumbing and Drainage works.
- All kind of low current installation works.

Mechanical Division

- Fabrication & Erection work of Structural steel, Louvers & Piping.
- Sub contract work for Erection of Pre fabricated steel structures & Equipment for new projects.
- Blasting and painting for all kinds of steel work

Engraving Division

We provide one stop solutions for all your labeling needs. The maximum engraving area 1200 mm x 600 mm, engraving can be done on various types of metals like Stainless Steel, Brass, Silver, Chrome, Gravometal, Gravoply II, Aluminum, coated Aluminum, brass, Metallex, Gold, Plastic etc.

Various signage's like cable tags, battery bank tags, name tags, panel name plates & key tags can be engraved or embossed.

Concrete Cutting, Coring & Earth Hole Drilling

Wire Sawing

- Cutting Large Openings of all kinds in thick structural components using diamond wire.
- Technical demolition, cutting away foundations, chimneys, supports etc.
- Sawing heavily-reinforced concrete, thick masonry etc.
- Cutting foundation columns (Piles), Under water application.
- Breaches & openings for windows & doors etc.
- Concrete demolition & remedial works.
- For through holes in concrete, size 6-800mm.
- Deep-hole coring, anchors, foundation, repair work.
- Finding a secure drilling point for drilling or coring work.
- Earth hole drilling services including supply & insertion of Earth rods, earth pits & measurement of earth resistance.
- Hydraulic operated DTH drilling rig of 4" diameter & 100 meters depth (2 Nos).
- Pneumatic operated Drill Rig of 4" diameter & 50 meters depth (3 Nos).

Wall Cutting

Core Drilling

Scanning

Earth Hole Drilling

Supply of Specialized Equipment on Rental Basis

- Primary (CPC100) & Secondary Injection Kit (CMC 256)-OMICRON.
- CB & CT Analyzer, OMICRON.
- DC Load Bank, DC power supply.
- Auto transformer, HV test set, Tan Delta-OMICRON.
- Transformer Oil filtration Equipment (2400 & 6000 LPH including Oil Tanks).
- Crane, Excavator & other construction equipment .

Water, Fire Sealant & Cable Coating Works (HILTI Approved)

We provide services for water & fire sealant, cable coating works for substation basements with skilled Manpower.

Advanced Technical Services Co.W.L.L,

Specialized Manpower Secondment

ATS has been providing specialized manpower secondment services to various clients in the following disciplines.

- Electrical Testing Engineers
- Electrical Construction Engineers
- Electrical Supervisors
- Electrical & Instrumentation Technicians
- Electrical Helpers
- Scaffolders
- Fabricators
- Welders

***Ongoing and completed projects are listed in ATS Company Profile**
